

RAZER

ASSIGNMENT 01
Rishabh Rawat
07/03/2025

RESEARCH

For this project, I conducted a thorough analysis of Razer and its competitors in the gaming and tech industry. The research includes a competition analysis of three key competitors and a creative brief that outlines the requirements and goals of this rebranding project. The findings from this research will guide the creative and strategic decisions for Razer's new branding identity.

Our Featured Products

APEX PRO TKL GEN 3

The World's fastest keyboard just got faster.
GAIN.

ANALYSIS 01 - STEELSERIES WEBSITE

SteelSeries has a modern and eye-catching website. The product images are high-quality, and the titles, such as the Apex Pro TKL Gen 3 keyboard and Aerox 3 Wireless mouse, grab attention. The website is well-organized, making it easy to browse categories like headsets, keyboards, and mice. The main weakness is the color scheme, which primarily uses basic white and black. While this gives the website a clean and minimalist look, it doesn't align with the vibrant, energetic, and futuristic aesthetic typically associated with gaming brands. The lack of bold or dynamic colors makes the website feel less engaging and less representative of the gaming culture.

To better align with gaming culture, SteelSeries should incorporate bold, dynamic colors like neon accents or RGB-inspired gradients. Razer's brand thrives on bold, edgy designs, so it should focus on high-energy visuals, interactive elements, and a vibrant color scheme to create a more immersive and engaging experience for gamers.

ANALYSIS 02 – LOGITECH WEBSITE

The Logitech website has a clean, modern design with a premium look. It's easy to navigate, and the homepage effectively highlights partnerships, such as MOMO's collaboration with Logitech G. The focus on specific products, like racing wheels, captures the audience's attention. Clear call-to-action buttons, such as "Discover the SIM GT 320," make it easy to learn more about their products.

While the website looks polished, it feels overly product-focused right away. There's little storytelling or explanation of Logitech's overall brand vision or what makes it unique. Newcomers might feel intimidated, as the focus is on high-end products rather than introducing them to the brand.

To make the website more relatable, Logitech could include a section highlighting the advantages of their gaming gear or testimonials from real customers. A beginner's guide or product comparison tool could also help first-time visitors feel more comfortable and engaged.

ANALYSIS 03 – CORSAIR WEBSITE

The Corsair website has a clean and simple UI that's easy to navigate. Sections like products, guides, software, and support are well-organized. The homepage focuses on new products, such as their latest CPU featuring the Nvidia 50-series graphics card. The inclusion of the Nvidia 5090 graphics card in the visuals is enticing and could encourage customers to purchase these new PCs.

The images of the PC are not neatly placed, and the text appears basic with only white color. The overall vibe of the website feels cheap and unprofessional, despite the clean UI. The typography and layout lack visual appeal, making the site appear dull.

Corsair should incorporate more colors and visual elements on the homepage to make it more engaging. Some new customers might leave the site thinking it's untrustworthy due to its current design. Adding modern fonts could enhance the visual appeal.

KEY MESSAGE

“Innovation for Every Gamer”

CURRENT PERCEPTION

Razer’s software is reliable, but the design feels outdated. Giving it a modern look with a fresh, clean interface and adding small animations could make it more enjoyable and easier to use. It would also better match Razer’s innovative and cutting-edge style.

STRATEGIC FOCUS

Razer will focus on bold innovation, vibrant aesthetics, and community engagement to strengthen its gaming leadership. By prioritizing cutting-edge technology, user-centric design, and sustainability, the brand will create a dynamic identity that resonates with gamers and tech enthusiasts worldwide.

TONE AND MANNER

The desktop app should feel bold, exciting, and creative, showing Razer’s place as a leader in gaming. The design should be smooth and focused on gamers, with micro-animations that make it fun.

PROJECT MANDATE

5 WEEKS Research and planing the design .
4 WEEKS creating the micro-animations.
4 WEEKS testing the design and get feedback from users.
2 WEEKS final beta release AND TESTING.

UNIQUE SELLING POINT

Smooth micro-animations that make Razer’s desktop app more fun, interactive, and in line with its premium gaming brand.

EMOTIONAL BENIFIT

Razer empowers gamers to feel confident, empowered, and connected. By using Razer’s cutting-edge technology and immersive designs, gamers experience a sense of belonging to a global community, pride in owning high-performance gear, and excitement for pushing boundaries in gaming and beyond.

OBJECTIVE

The objective is to rebrand Razer by refreshing its identity to reflect innovation, performance, and gaming culture. This rebranding will strengthen its connection with gamers, attract new audiences, and solidify its position as the leading brand in the gaming and tech industry.

CREATIVE

CONSIDERATIONS

The micro-animations should be smooth and not distracting. Use green as the main color to align with Razer’s brand. The UI should remain clean and easy to use, ensuring a seamless experience without being overwhelming.

TARGERED AGE GROUP

14 TO 32

COMPITITORS

IMAGINE

In this phase, we envision a bold and futuristic identity for Razer that captures the essence of gaming culture. Through user personas and moodboards, we'll explore the needs, motivations, and aspirations of gamers, ensuring the rebrand resonates deeply with Razer's audience. The goal is to create a visual and emotional connection that reflects Razer's innovation, performance, and community-driven values, while pushing the boundaries of design to inspire excitement and loyalty among gamers worldwide.

🎮 Esports Enthusiast

🎧 FPS Addict

🏆 Competitive Gamer

⚡ RGB Lover

Needs

- ✓ High-speed, ultra-responsive gaming peripherals
- ✓ Customizable gear for performance optimization
- ✓ Comfortable setup for long gaming sessions
- ✓ Stylish aesthetics with RGB lighting

Frustrations

- ✗ Laggy response times ruining competitive matches
- ✗ Uncomfortable peripherals causing wrist strain
- ✗ Wireless latency affecting reaction speeds

Motivation

Bio

Alex is a dedicated esports player and college student who spends hours perfecting their skills in fast-paced FPS games like Counter strike and Valorant. They stream occasionally on Twitch and love discussing gaming hardware on social media. As someone passionate about gaming tech, Alex prefers high-end peripherals that provide speed, comfort, and style. Their dream is to join a professional esports team and build a community of gamers who appreciate top-tier performance.

Personality

Accessibility

Needs ergonomic peripherals for wrist support
Prefers customizable key binds for quick reflexes
Uses software for RGB lighting & macro adjustments

Technology

💻 Primary Platform: PC Gaming

🎧 Gear: Razer BlackShark V2 headset, Razer Huntsman Mini keyboard, Razer Viper Ultimate mouse

🎮 Favorite Games: Valorant, Counter strike

📺 Streaming Setup: Dual monitor 144 hz, custom-built gaming PC, Elgato capture card

Associated Brands

Primary: Razer

Other Interests: ASUS ROG, SteelSeries, HyperX, Elgato

PLAN

The following plan outlines the branding guide for my project, detailing Razer's new visual identity, including logos, color palettes, typography, and iconography. It also establishes guidelines for public-facing communications to ensure a cohesive and impactful brand experience.

Mission, Vision & Values

Mission

To empower gamers with cutting-edge technology, innovative designs, and immersive experiences that push the boundaries of performance and creativity.

Vision

To be the ultimate brand for gamers worldwide, leading the industry in innovation, community engagement, and gaming culture.

Values

Innovation: Constantly pushing the limits of technology to deliver the best gaming experiences.

Performance: Providing high-quality, reliable products that enhance gameplay.

Community: Fostering a global community of gamers who share a passion for gaming.

Sustainability: Committing to eco-friendly practices and responsible innovation.

Inclusivity: Celebrating diversity and ensuring gaming is accessible to all.

Logo

Snake Imagery: The three-headed snake in the Razer logo symbolizes the company's ability to strike in multiple directions and adapt to various environments. Snakes are often seen as creatures of **agility and speed**, qualities that Razer wants to represent in its gaming products, which are known for being high-performance and responsive.

The Number Three: The three heads could also represent the company's focus on three key pillars: **performance, innovation, and design**. These are central to Razer's approach to creating cutting-edge gaming peripherals and software

Hazard Sign: The hazard sign symbolize the **"danger" or "intensity"** that Razer products bring to the gaming experience. It could convey the idea of being prepared for a high-stakes, competitive environment, which aligns with the adrenaline-fueled nature of gaming.

The "Razer" Brand Identity: The name "Razer" itself is a reference to the **sharpness and precision** of a razor blade, which connects to the company's commitment to delivering high-quality products with cutting-edge technology..

Logo

COLOUR PALETTE

A palette of AODA and WCAG-compliant colours opens the door to creativity and lets us make a bold statement in all types of work. To reflect Razer's iconic identity, we've chosen a vibrant green-dominated scheme, with each colour named after elements that evoke energy, innovation, and gaming culture:

Green

hex

#00DB10

rgb

(81,184,72)

Concrete

hex

#F2F2F2

(43,51,44)

TYPEFACES

Davis Sans is a modern and versatile typeface inspired by clean geometric designs and futuristic aesthetics. Its balanced proportions and sleek lines make it perfect for capturing Razer's innovative and cutting-edge identity, ensuring a professional yet dynamic look across all branding materials.

ICONOGRAPHY

The new iconography for Razer's rebranding is designed to reflect its bold, futuristic, and innovative identity. Icons will feature clean lines, geometric shapes, and a single-color design to ensure consistency and scalability across all platforms. Each icon will align with Razer's gaming-centric aesthetic, using sharp angles and dynamic forms to convey speed, precision, and cutting-edge technology.

Guidelines for Icon Usage:

Size=Medium

Stroke over fill

Single Colour

ICONOGRAPHY
